Advanced Data Analysis using JAMOV

Who Can Attend: Researchers | Faculty | Ph.D. Scholars | Data Analysts | Postgraduate Students

Workshop Topics

1. Factor Analysis
 - a. Exploratory Factor Analysis
 - b. Confirmatory Factor Analysis
2. Multiple Regression Analysis (Cause and Effect)
3. Moderation & Mediation Analysis (Direct & Indirect Effect)
4. Path Analysis (Extension of Multiple Regression)
5. Structural Equation Modeling (SEM)
 1. Simple (Many to One)
 2. Saturated Model
 3. Moderate-Mediated Model

Key Takeaways

- ✓ Hands-on Experience with Real Research Data
- ✓ Practical Understanding of Statistical Modeling Concept
- ✓ Guidance on interpreting model fit indices and output
- ✓ Certificate of Participation (E-copy)
- ✓ Ready-to-use syntax and report writing tips for your research
